1. About The House

Sarthi Exim India is a premier merchant-exporter working directly with key growers, cooperatives, and specialized processing units across India. We specialize in sourcing, quality checking, and exporting premium spices and agricultural commodities to overseas markets including the Gulf region, Europe, and Southeast Asia.

Our operations are centered around strict quality control and a rigorous, error-free documentation process. By doing so, we ensure that every container shipped meets the specifications of importing customs houses and clears without surprise delays.

Our Core Commitments:

- **Lab-Tested Lots:** Every batch undergoes inspection for moisture, purity, and chemical residues.
- **Documentation-First Sourcing:** We hold all necessary export licenses including IEC, GST, FSSAI, Spices Board RCMC, and FIEO membership.
- **Direct Farmer Linkages:** Direct sourcing ensures price competitiveness and crop traceability.
- **Bespoke Logistics:** Full Container Load (FCL) shipping, customized packaging, and moisture-absorbing liners are standard.

2. Product Range & Export Specifications

We supply six core product lines, processed under hygienic conditions and packed in high-grade bags to retain aroma, flavor, and freshness over long sea transits.

Product	Grades / Varieties	Key Export Specifications
Red Chilli	Sannam S4, Teja S17, Byadgi	Stemless or with stem, high color values (ASTA), low moisture (<12%)
Turmeric	Nizamabad Finger, Salem Double Polished	Curcumin content 3% to 5.5%, clean, well-dried
Black Pepper	Malabar Garbled, 500GL - 550GL	High piperine content, minimal extraneous matter
Cardamom	Green Bold (7mm, 8mm+)	Deep green color, fully ripe, high volatile oil content
Garlic	Fresh Bulbs, Dehydrated Flakes, Powder	Well-cured, no cloves sprouting, uniform grade sizes
Onion	Red Nasik Onion, Dehydrated Flakes	Sorted by diameter (45mm, 55mm+), firm skin

3. Our Export Process

Every shipping manifest moves through our four-stage fulfillment pipeline to guarantee consistency and custom compliance.

Stage 1: RFQ & Specification Alignment

We outline specifications, pricing (FOB/CIF), packaging weight, and delivery timeline. Samples are supplied on request.

Stage 2: Sourcing & Quality Testing

Spices are sourced direct from origin, cleaned, graded, and checked in accredited laboratories for pesticide residues, moisture, and essential oils.

Stage 3: Packing & Labelling

Packed in heavy-duty PP bags, jute bags, or custom boxes with moisture-absorbing barriers and clear batch coding.

Stage 4: Custom Clearance & Loading

Container stuffing is monitored closely. Phytosanitary certificates, Certificates of Origin, and Bills of Lading are processed rapidly.

4. Statutory Certifications & Registration

Sarthi Exim India operates in full compliance with the statutory laws of the Government of India and is fully authorized to engage in international trade of agricultural goods:

- **Directorate General of Foreign Trade (DGFT):** Holder of valid Import Export Code (IEC).
- **Spices Board of India:** Registered Exporter of Spices with active RCMC.
- **FSSAI:** Food Safety and Standards Authority of India licensed exporter.
- **FIEO:** Registered with the Federation of Indian Export Organisations.
